Requirement Gathering Questionnaire

JULY 31, 2023

**RONY BINOY
INMCA 2019-24**

Date: 31/07/2023

Guide: Ms. Shelly Shiju George

Project Name: ShareSphere

Requirement Gathering Questionnaire

1. Project Overview?

ShareSphere, a migration support application designed to assist individuals from India who are planning to migrate to other countries. ShareSphere aims to connect these future immigrants with a community of people who have already migrated, providing a comprehensive platform for communication, collaboration, and support throughout the entire migration journey.

2. To what extend the system is proposed for?

ShareSphere is a comprehensive migration support application designed to assist individuals migrating from India to other countries. It offers features like college search, job support, accommodation help, travel assistance, and exam guidance (IELTS, OET, DTZ etc.). The platform aims to connect migrants with a community for seamless support throughout their migration journey.

3. Specify the Viewers/Public which is to be involved in the System?

ShareSphere is a system catered to individuals intending to migrate from India to other countries. The primary users are future immigrants who are in the planning phase, while the platform also welcomes and encourages assistance from migrants who have already completed their migration journey and are willing to support the newcomers.

4. List the Modules included in your System?

•User Registration and Authentication:

This module allows users to register on the platform using their credentials and provides authentication to ensure secure access to the application.

•Public Chat Forum:

A public chat forum where both future immigrants and migrants can engage in discussions, share experiences, and seek advice from the community.

•**Country-Based Chat Communication:**

A feature that enables users to connect with others specifically from their destination country for more personalized and location-specific support.

•**College and University Search:**

This module assists future immigrants in finding suitable colleges and universities in their destination countries, helping them plan their education abroad.

•**Job Search Support:**

This module helps both part-time and full-time job seekers explore employment opportunities in their destination countries.

•**Accommodation Finding Services:**

A module that aids in finding suitable accommodations in the destination country to facilitate a smooth transition for migrants.

•**Study Materials Sharing:**

A platform for users to share study materials and resources related to the qualifying exams and other educational aspects of migration.

•**Visa Sponsorship:**

This module provides valuable information and guidance on visa sponsorship opportunities available in the destination country. It assists future immigrants in understanding the visa sponsorship process, requirements, and connecting them with potential sponsors, such as employers or educational institutions, who can support their visa application.

• **Payment Subscription**

The future immigrant can access premium features like personal chat with migrants, Visa Sponsorship, etc.

5. Identify the users in your project?

- Moderator/Admin
- Future Immigrants
- Migrants

6. Who owns the system?

This is a sole idea of Rony Binoy, young talented student of Amal Jyothi College of Engineering. He has the ownership of the idea and its web application

7. System is related to which firm/industry/organization?

This System act as a community chat forum along with a feature to connect with people worldwide.

8. Details of person that you have contacted for data collection?

Contacted friends and relatives who has migrated to different countries to gather information about the problems they face during the migration. Some of the persons are

1. Kevin Shaji

Ontario, Canada

2. Delna joseph

Toronto, Canada

9. Questionnaire to collect details about the project? (Min 10 questions, include descriptive answers, attach additional docs (e.g., Bill receipts, certificate models), if any?)

• What is the primary objective of ShareSphere?

Answer: The primary objective of ShareSphere is to provide comprehensive support and assistance to individuals planning to migrate from India to other countries.

• What key features does ShareSphere offer to future immigrants?

Answer: ShareSphere offers features such as college and university search assistance, job search support, accommodation finding services, travel and documentation assistance, and guidance for qualifying exams (IELTS, OET, DTZ etc.).

• How does ShareSphere connect future immigrants with migrants who have already migrated?

Answer: ShareSphere provides a public chat forum and country-based chat communication, allowing future immigrants to engage with migrants and seek advice and support. There will be also a subscription based personal chat for advanced assistance.

• How does ShareSphere handle user-generated content to maintain a positive and supportive community?

Answer: ShareSphere employs a team of moderators who monitor and review user-generated content to ensure it adheres to community guidelines. Any inappropriate or violating content will be promptly removed, promoting a positive and supportive environment for users.

• How does ShareSphere ensure the quality and relevance of study materials shared on the platform?

Answer: Moderators validate and add study materials to the application to ensure they meet the necessary standards and are relevant to the qualifying exams.

- **Can you describe the process of user registration and authentication on ShareSphere?**

Answer: Users can register on the platform using their credentials, and ShareSphere provides authentication to ensure secure access to the application.

- **How does ShareSphere assist users with visa sponsorship?**

Answer: ShareSphere's Visa Sponsorship module provides valuable information and guidance on visa sponsorship opportunities in the destination country and connects users with potential sponsors.

- **Which user group does the system target the most, future immigrants or migrants?**

Answer: The system primarily targets future immigrants who are in the planning phase of migration.

- **How does ShareSphere differentiate itself from existing migration support systems?**

Answer: ShareSphere offers a community-driven platform with comprehensive features, unlike existing limited social media pages operated by small teams.

- **Can you share information about the ownership or organization behind ShareSphere?**

Answer: This is a sole idea of Rony Binoy, young talented student of Amal Jyothi College of Engineering. He has the ownership of the idea and its web application
