Roll No   - 51
Batch   - INT MCA 2019-2024
Date   - 07/08/2023

Date: 07/08/2023

Guide: Ms. Shelly Shiju George

Project Name: ShareSphere

ShareSphere

Topic: Migration Support Platform

Abstract:

ShareSphere stands as an inclusive migration support platform designed to connect Indian individuals embarking on journeys to foreign countries. With a focus on communication, collaboration, and comprehensive assistance, the application streamlines the migration experience. Noteworthy features include aiding in college and university searches, facilitating job searches for part-time and full-time positions, and offering support in securing accommodations.

Distinguishing itself from the limited scope of small team-operated Instagram pages, ShareSphere offers a robust and all-encompassing platform. This platform unites individuals from diverse backgrounds, cultivating a cohesive migration journey that overcomes barriers.

ShareSphere prioritizes simplifying the intricate migration process, empowering Indian migrants with essential tools. Encompassing academics, employment, and housing, the platform fosters community and empowerment among users. By promoting inclusivity, collaboration, and comprehensive support, ShareSphere redefines the migration landscape, ensuring a positive experience for all.

Major Features:

- College and university search assistance.
- Find and Apply for Scholarships
- Accommodation finding services.
- Book Accommodation services
- Search for job fairs and events
- Look for internship opportunities
- Job search support for part-time and full-time positions.

Existing Systems:

Currently, there are no proper application systems that offer all these features together to assist migrants in easily and seamlessly accessing the support they need. Existing systems are limited to small Instagram pages operated by teams of 5-10 members. ShareSphere aims to address this gap by providing a platform for individuals to connect, and receive comprehensive assistance in migrating from India to other countries.

Website Users:

1. **Immigrant -**

   People who are planning to migrate or migrated for education or work

2. **Accommodation provider-**

   Landlords or realtors who deals with accommodation

3. **Institutes -**

   Universities and educational institutes that offer different courses

4. **Employer-**

   Hire people for Full-time and part-time jobs

5. **Moderator panel -**

   Admin panel with one or more moderators from each region of operation to maintain and manage the Application

Functionalities:

1. **Immigrant-**
   - Access to Country based chat communication
   - Inquire query regarding accommodation
   - Respond and book accommodation listings
   - Search and register for College Admissions
   - View and apply for Scholarships
   - View and register for Webinars and events hosted by institutes
   - View and apply for job openings
   - Apply For internships
   - View and register for job fairs and events

2. **Accommodation provider-**
    - **Register as Accommodation Provider:**
      Registration as Accommodation provider will be done and join request will be send to moderator of that region for approval

    - **Create Accommodation Listings:**
      Accommodation providers can create detailed listings for the accommodations they have available. Include information such as type of accommodation (apartment, house, room), location, rent, amenities, and photos.

    - **Edit and Update Listings:**
      Allow providers to edit and update their accommodation listings when necessary. Enable them to modify details, add new photos, update rental prices, etc.

    - **Respond to Inquiries:**
      Allow providers to view and respond to inquiries or messages from potential renters. Provide a communication channel within the platform for these interactions.

    - **Manage Bookings:**
      If your platform supports booking functionality, allow accommodation providers to accept or decline booking requests from users.
      Track confirmed bookings and manage reservations.

3. **Institutes-**
    - **Register as Institute:**
      Registration as institute will be done and join request will be send to moderator of that region for approval

    - **Add or Remove Course and Academic Information:**
      Institutes can update their course offerings in real-time, ensuring accurate and current program details for students.

    - **Post Scholarships and Financial Aid Options:**
      Institutes can showcase scholarships and aid opportunities, easing financial burdens for international students and aiding in informed decision-making.

    - **Events and Activities:**
      Institutes can list campus events, workshops, seminars, and cultural activities, fostering a dynamic and enriching student experience. This includes career fairs, cultural festivals, networking events, and skill-enhancement workshops. These offerings create a vibrant learning environment and provide students with opportunities for growth and interaction.

- **Virtual Interviewing Tools:**
  Incorporate tools that allow institutes to conduct virtual interviews, assessments, and evaluations, making the admission process more efficient and accessible.
- **Analytics and Insights:**
  Provide institutes with analytics and insights related to their course postings. This could include data on how many views their posts received, the click-through rates, and other performance metrics.

4. **Employer-**
   - **Register as Employer:**
     Registration as Employer will be done and join request will be send to moderator of that region for approval
   - **Post job openings:**
     Allow employers to post job openings for both part-time and full-time positions suitable for migrants and international students.
   - **Internship Opportunities:**
     Allow employers to list internship and co-op opportunities for students looking to gain practical experience.
   - **Job Fairs and Events:**
     Provide a platform for employers to announce and promote job fairs, networking events, and recruitment drives.
   - **Application Management:**
     Employers can view and manage incoming job applications and resumes submitted by applicants. Implement tools for filtering, sorting, and shortlisting candidates.
   - **Analytics and Insights:**
     Provide employers with analytics and insights related to their job postings. This could include data on how many views their posts received, the click-through rates, and other performance metrics.
   - **Virtual Interviewing Tools:**
     Incorporate tools that allow employers to conduct virtual interviews, assessments, and evaluations, making the hiring process more efficient and accessible.

5. **Moderator Panel-**
   - Verify and approve Institute registration
   - Verify and approve Employer registration
   - Verify and approve Accommodation Provider registration
   - View and verify the Posts by Accommodation Providers
   - View and verify the Posts by Institutes

- View and verify the Posts by Employers
- Ban or remove users based on certain criteria
- Monitor chats and remove unwanted or violated contents

Functionalities Covered in Mini Project:

1. **Immigrant-**
   - View and apply for courses hosted by different institutes
   - Access to Public chat forum for discussions
   - Access to Country based chat communication
   - View and respond to Accommodation listings
   - Make payment and book accommodation

2. **Institutes**
   - Send request to Register as Institute
     Registration as institute will be done and join request will be send to moderator of that region for approval
   - Add or Remove Course and Academic Information:
     Institutes can update their course offerings in real-time, ensuring accurate and current program details, eligibility, fees details for students.
   - Manage received Applications:
     View and manage applications received for different courses from international students

3. **Accommodation Providers-**
   - Create Accommodation Listings
   - Edit and Update Listings
   - Respond to Inquiries
   - Manage Bookings
   - Payment Gateway Integration

4. **Moderator Panel-**
   - Verify and approve Institute registration
   - Verify and approve Accommodation Provider registration
   - View and verify the Accommodation listings by Accommodation Providers
   - View and verify the Postings by Institutes
   - Monitor chats
   - Remove unwanted or violated contents
   - Ban or remove users based on policies
   - Remove Postings that violates guidelines

Functionalities Covered in Main Project:

1. **Immigrant-**
   - Search and register for College Admissions
   - View and apply for Scholarships
   - View and register for Webinars and events hosted by institutes
   - View and apply for job openings
   - Apply For internships
   - View and register for job fairs and events
   - Join virtual interviews hosted by employers

2. **Institutes-**
   - Post Scholarships and Financial Aid Options:
     Institutes can showcase scholarships and aid opportunities, easing financial burdens for international students and aiding in informed decision-making.
   - Analytics and Insights:
     Provide institutes with analytics and insights related to their course postings. This could include data on how many views their posts received, the click-through rates, and other performance metrics.
   - Events and Activities:
     Institutes can list campus events, workshops, seminars, and cultural activities, fostering a dynamic and enriching student experience. This includes career fairs, cultural festivals, networking events, and skill-enhancement workshops. These offerings create a vibrant learning environment and provide students with opportunities for growth and interaction.
   - Virtual Interviewing Tools:
     Incorporate tools that allow institutes to conduct virtual interviews, assessments, and evaluations, making the admission process more efficient and accessible.

3. **Employer-**
   - Job Posting: Allow employers to post job openings for both part-time and full-time positions suitable for migrants and international students.
   - Internship Opportunities: Allow employers to list internship and co-op opportunities for students looking to gain practical experience.
   - Job Fairs and Events: Provide a platform for employers to announce and promote job fairs, networking events, and recruitment drives.
   - Application Management: Employers can view and manage incoming job applications and resumes submitted by applicants. Implement tools for filtering, sorting, and shortlisting candidates.

- Analytics and Insights:
  Provide employers with analytics and insights related to their job postings. This could include data on how many views their posts received, the click-through rates, and other performance metrics.
- Virtual Interviewing Tools:
  Incorporate tools that allow employers to conduct virtual interviews, assessments, and evaluations, making the hiring process more efficient and accessible.

4. **Moderator panel-**
   - Verify and approve Employer registration
   - View and verify the Postings by Employers
